

I live in the world of Second Life since 05/05/2015 and am almost every day online to live a life without the fears and inhibitions I have in RL (Real Life). SL gives me handouts to re-live my life as it could have been without those limitations. And so I started to think and talk about my limitations. I had to explore my emotions. I had to deal with my bad learning capacities, memory and poor social development. During my SL life I made mistakes and I cried a hundred times, but things have always turned out for the best. Subsequently I became apprehensible for the advices to let the past behind me and to be positive. It was an important step. Gradually towards 2022 I used my limitations to gain confidence and became stronger.

Meanwhile I came aware what our soul is about, in this life and in between lives, How the spiritual universe works. It makes our lives much better to understand what it is all about. And that is, to become (after many lives) total love and one with, let us call it "God". The spiritual energy from which our souls emerged.

After 2 years of living on a rental sim, 'Simonds and Kidd' of which I am still part of, I went to the BDSM school at House Of Jana. There I graduated both as sub and master. This school emphasised the love and trust that is basic in the world of BDSM and because of the positive feelings it gave me it was one of those rare moments in my life I was really enthusiastic about something I undertook. For a short interim period I was the governor of the school.

Songs can release deep emotions and inspire choreographers to create dances on them. Meanwhile my main interest became making video's from the dances of the Debauche Dancers. It appeared that dancing was what makes me the most happy and my strongest wish was to become one of the Debauched Dancers. After almost one year I was admitted to them. It was a wonderful and valuable experience. It played out that Debauche was not the perfect match for me but fortunately, soon after that, in 2019 I could join the Oasis Dancers, which fits me better and I am still with them. My nascent vanity burgeoned and in 2022 I became a Playdoll and model for Playdolls Magazine. Playdolls form a close-knit community and engage in many activities. I also started dancing with the Playdolls Dancers. In 2024 I created my own dance (Greatest Love) which was a huge achievement for myself.

Late 2022 I became model at Whiskey Girl Studios. January 2023 I started a recurring photo contest for Whiskey Girls every two months to give all models a chance to let their photo be evaluated by a jury.
